

COLD FRONT 400

36" EVAPORATIVE COOLING FAN

The Cold Front 400 is a variable speed, direct drive portable evaporative cooler.

Its 36" fan, 46 gallon water reservoir, and powerful, yet whisper quiet motor will keep you cool and comfortable.

FEATURES

- The Cold Front 400 variable speed, direct drive is completely portable with a thick, UV resistant housing that will not leak or rust
- A large 46 gallon built in water reservoir offers hours of operation without a water supply connection
- 3600 sq ft of cooling coverage + 8' thick cooling media for durability, performance and 33% more coolign surface than the standard 6" cooling media.
