## KWIKOOL KPO12-43 135,000 BTU<sub>s</sub>

The KPO12-43 is the most versatile unit in size and capacity in the KPO Series, KwiKools Indoor/Outdoor line of portables. The KPO12-23 has an extremely small foot print that is ideal for difficult applications that require moving cold air to hard-to-reach places. The unit can be placed outdoors with duct running into a building space, or it can be placed inside a building and ducted into an interior space.

### FEATURES

- Low ambient condensing temperature controls utilizing variable frequency drive technologies.
- Advanced air flow capabilities, up to 75 feet cold air returns and supply, and up to 100 feet of hot air exhaust ducting.
- Heavy duty base has removable wheels and forklift access for easy movement, setup, and transport.
