

**AEROSPACE | AEROCLEAN
2000 NEGATIVE AIR MACHINE**

The “ECONO” is a slim air scrubber, negative air machine designed to fit into those “hard-to-access” areas. Made from aircraft grade aluminum, this unit is also lightweight to make shipping easy and cost effective (shipping weight only 150 lbs). The slide-down door gives you easy accessibility to internal components for maintenance or filter changes.

It features four heavy-duty casters for easy mobility around the job site. Four built-in handles on either side of the unit give you a sturdy hand-hold for maneuvering the unit into place or hoisting in and out of the truck.

Features:

- Air capacity: 1950 CFM high speed, 1300 CFM low speed
- Motor: 1.0 HP (two-speed switch)
- Exhaust port: 12”
- Dimensions: 33” L x 26” W x 26” H
- Weight: 150 lbs (shipping weight)
- Sound level: 70 dBA on low, 85 dBA on high
- Power cord not included. A 10-gauge cord no longer than 100 feet is recommended.
