FLAGRO FMA-1500

1,500,000 BTU_s 🔥

The Flagro FMA-1500 Dual Fuel Direct-Fired Make Up Air Heater is proven to be one of the most effective ways for construction / industrial sites to control temperature, reduce air contaminants and keep moisture levels down.

Having the ability to switch between Natural Gas or LP allows owners / operators more flexibility when bidding future projects that will require consistent dry heat. With the included remote thermostat, achieving evenly distributed, dry air is possible with the heater inside or outside.

FEATURES

- Modulating controls provide constant outlet temperature to the jobsite.
- Freeze-stat prevents unheated air entering the desired area.
- Mild weather-stat option allows for significant fuel savings.
