FLAGRO FMA-550

550,000 BTU_s 🔥

The Flagro FMA-550 Dual Fuel Direct-Fired Make Up Air Heater is proven to be one of the most effective ways for construction / industrial sites to control temperature, reduce air contaminants and keep moisture levels down. Having the ability to switch between Natural Gas or LP allows owners / operators more flexibility when bidding future projects that will require consistent dry heat.

At 480 lbs and only 28" wide the standard caster wheels (2 rigid / 2 swivel) allow this heater into many places other heaters just cannot go. With the included remote thermostat, achieving evenly distributed, dry air is possible with the heater inside or outside. Comes with protective square tubing crate allowing machines to be stacked up to 3 high.

FEATURES

- Modulating controls provide constant outlet temperature to the jobsite.
- Freeze-stat prevents unheated air entering the desired area.
- Mild weather-stat option allows for significant fuel savings.

SPECIFICATIONS - FLAGRO FMA-550

BRAND	Flagro
CFM	4,400
DIMENSIONS	63"X33"X48"
FUEL CONSUMPTION	601 GPH / 550 CPH
FUEL SOURCE	LP & NG
HEATING BTU'S	550,000
MODEL	FMA-550
THERMOSTAT	Yes
VOLTAGE REQUIREMENTS	115v / 20amp
WEIGHT	590 lbs
